

# Aflex Hose Ltd

World's Leading Manufacturer of PTFE Flexible Hose

## Certificate of Conformity

### For F.D.A Approved Materials

Aflex Hose Ltd hereby confirm that the PTFE hose(s) supplied are manufactured solely from FDA approved materials.

The virgin hose grade PTFE material used conforms to F.D.A. Regulation 21 CFR 177.1550.

For Antistatic hose, the Carbon Black material is a High Purity "Furnace" Black, which conforms to F.D.A. Regulation 21 CFR 178.3297. This regulation also requires that the percentage of the Carbon Black used must not exceed 2.5% by weight of the Polymer, and we confirm that this requirement is also met.

Yours faithfully,

For and on behalf of Aflex Hose Limited

Richard C White  
Quality Assurance Manager
